DM: Dual Motor (2x Power)

FTL | ASTM E1105 TRAVEL RACK

ASTM E1105 TRAVEL SPRAY RACK

Description:

Nine-piece rack with cam-locks that allow the rack to come apart and fit into a container with an 8" diameter. This rack is designed for travel because it easily fits into the trunk of a car and can also be bagged in cargo when traveling by air. It has twelve brass spray nozzles (FTL-N1 Type) with shut off valves. The frame is approximately 4'x6', and the spray coverage area is 6'x8'. Altogether the system inside the tube weighs approximately 45-lbs.

Item No.
SR-001

Notes:

Used and refurbished spray racks may be available at a discount (inquire for availability).

FTL | AAMA 501.2 SPRAY WAND

FTL | FORENSIC SPRAY GUN
